Objective:

I am interested in working in software development fields and improving my skills as a programmer. My passion for programming and knowledge of data structures and algorithms will help create efficient and effective programs.

Skills:

- Fluent in C, C++, SQL, Python, HTML, CSS, C#, Java, JavaScript, Matlab
- Proficient in Microsoft Suite, Github, Linux/Unix Systems, Windows OS, Visual Studio, jQuery
- Data structures and Algorithms, run time complexity
- Strong emphasis in database management systems.
- Familiar with .Net MVC and Unity Game Engine.
- Proficient in speaking and reading Spanish.

Projects:

Personal Website:

- Built and maintain my own personal website that was programmed from scratch without the use of any frameworks or templates.

Game:

- Used Unity Game Engine to make a 2D single screen survival game. Programmed in C#.

Webpage:

- Worked in a team to design a webpage for my senior design project. Used Google Maps API and programmed in HTML/CSS and JavaScript. Also used a Database to query data to be used by Google fusion tables for the webpage.

Discord Bot:

- Created a bot with various useful tools for the all-in-one voice and text chat application Discord. Programmed in Python and used multiple APIs.

Experience:

CCSInteractive

Ontario, California

Intern Web Developer

July 2018-Current

- Assist in programming websites for various clients. Program websites in PHP, JavaScript, HTML/CSS. Create scripts for back-end development.

IQA METAL INC

Chino, California

Computer Technician

Jan 2018- July 2018

- Troubleshoot different types of laptops and computers and determine what hardware or software changes are needed.
- Break down systems, remove malfunctioning hardware and install new parts.

Education:

Bachelors of Science, Computer Science

University of California, Riverside

Major GPA: 3.24
